DETAILED ACTION

1. According to a preliminary amendment, the applicants have amended claims 21-26.
2. Claims 21-26 are now pending in the application.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 21, drawn to compounds of formula of claim 21, classified in class 546, subclass 64.
 - II. Claims 22 and 23, drawn to compounds of formulae of claims 22 and 23, classified in class 546, subclass 82.
 - III. Claim 24, drawn to compounds of formula of claim 24, classified in class 546, subclass 79.
 - IV. Claim 25, drawn to compounds of formula of claim 25, classified in class 548, subclass 250.
 - V. Claim 26, drawn to compounds of formula of claim 26, classified in class 546, subclass 113.
4. The inventions I through V as defined above are patentably distinct, each from the other since they are structurally so divergent that a reference showing compounds of group I would not render compounds of groups II through V prima facie obvious. Search required for e.g ; compounds of group I in class 546, subclass 64 is not the same search required for e.g ; compounds of group II in class 546, subclass 82 and therefore, constitutes a burdensome search.

5. During a telephone conversation with the applicants attorney, Mr. Dean A. Ersfeld on Oct. 19, 2004, a provisional election was made with traverse to prosecute the invention of group II, claims 22 and 23. Affirmation of this election must be made by applicant in replying to this Office action. Claims 21 and 24-26 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

7. The following amendment is pursuant to a telephone conversation with the applicant's attorney, Mr. Dean A. Ersfeld on Oct. 19, 2004. The following changes have been made in claims.

Cancel claims 21 and 24-26 directed to non-elected inventions without prejudice to the filing of a divisional application.

REASONS FOR ALLOWANCE

8. The following is an examiner's statement of reasons for allowance:

Claims 22 and 23, renumbered as claims 1 and 2, are allowed since the instant compounds are neither disclosed nor obvious over the prior art. In the art, Mickelson (

Art Unit: 1625

U.S. Patent.6,638,944) discloses Imidazonaphthridines. The intermediate compounds 2 and 3 (see column 17, lines 20-50) disclosed by Mickelson do anticipate the instant compounds. However, this reference dos not constitute a prior art reference since it is inventor's own work and furthermore, the effective filing date is identical and to the same provisional application 60/069,276.

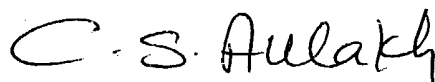

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
